Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?

The list is comprehensive. No others needed.

Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?

Openness indicators should focus on Open Educational Resources.

What sources and means of verification would you recommend, from your experience, in relation to any of the questions and indicators that have been proposed?

I would suggest using the OER Knowledge Cloud for research on Openness.
