How would you define the stakeholder community or communities to which you belong?
Government

Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?

More emphasis can be placed on cyber security especially as it relates to cyber threats and bullying.

Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?

Theme B8, page 8 speaks to 'harassment by government'. This suggests that any government response is hostile/ bordering on illegal. This should be reworded to read '...to avoid intervention by authorities...'

What sources and means of verification would you recommend, from your experience, in relation to any of the questions and indicators that have been proposed?

No additional sources recommended.
