towards a people-centred approach to smart cities

Katja Schäfer, United Nations Human Settlements Programme (UN-Habitat)

“ *Our Struggle for
Global Sustainability
Will Be Won or Lost in Cities* ”

2012:
UN Secretary-General Ban Ki-moon

UN-Habitat Flagship Programme 2 on People-centred Smart Cities

UN HABITAT
FOR A BETTER URBAN FUTURE
FLAGSHIP PROGRAMME

People-Centered
Smart Cities

Thematic Areas

<p>1 Policy Transformation</p>	<p>Increased focus and mainstreaming of people-centered, sustainable and inclusive digital transition as a critical policy topic in high level political forums and global dialogues on smart cities.</p>
<p>2 Financing Digital Urban Innovation</p>	<p>Increased investment and financing for people-centered smart cities to accelerate the achievement of the SDGs with a specific focus on developing countries, small and medium size cities and grassroots urban communities.</p>
<p>3 Digital Empowerment and Capacity Building</p>	<p>Enhanced capacity of governments at all levels to adopt a people-centered, privacy-enhancing, and rights-preserving approach to digital technologies for inclusion and sustainable urban development in the achievement of the SDGs.</p>

FLAGSHIP PROGRAMME

**People-Centered
Smart Cities**

Playbook Series for Local Governments

1. Assessing the Digital Divide - Understanding Internet Connectivity and Digital Literacy. A Playbook for Local and Regional Governments
2. Addressing the Digital Divide - Taking Action towards Digital Inclusion. A Playbook for Local and Regional governments
3. Centering People in Smart Cities: A Playbook for Local and Regional Governments
4. Capacity Building: Multi-stakeholder Partnerships and Organizational Development
5. E-Government Infrastructure: Digitization and Data Governance
6. Public Participation: Digital Public Goods, Digital Rights & Digital Democracy

Thematic Areas

<p>1 Open, Transparent and Participatory Governance of Data and Digital Platforms</p>	<p>UNITAC Hamburg is testing approaches, developing technology and producing guidance on open and transparent digital governance for local and national governments.</p>
<p>2 Mapping, Spatial Analysis, Data Analytics and Visualization</p>	<p>UNITAC Hamburg is testing and applying a wide range of new software and hardware that can be used by urban managers and others for mapping, spatial analysis, data analytics and visualization of urban trends and data.</p>
<p>3 People-Centred Smart Cities</p>	<p>By taking an approach that is centred around the real needs of cities and their citizens including marginalized communities, UNITAC Hamburg is developing proofs of concept that are appropriate and contribute to inclusive and sustainable development.</p>
