

# 50<sup>th</sup> Anniversary of UNESCO's MAB Programme

## Be part of the celebration!

**UNESCO MAB is inviting you to inspire the world with the impact of your biosphere reserve by sending us audio-visual materials.**

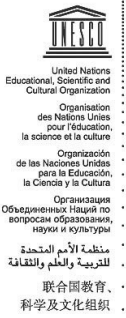

**We are looking for your creativity to represent the diversity of the MAB World Network in 2019.**

Given throughout the year we will be producing extensive audiovisual contents to promote the Programme as whole and, particularly, Biosphere Reserves in different countries, we would like to invite our Member States and sites to contribute in the form of high-quality video, photo and audio materials.

These should reflect the interactions between people and their environment, including natural, cultural and traditional features.

We kindly ask these materials to be submitted in the following formats:

- Pictures: .jpg or .png; +200 dpi; no logos or captions;
- Videos: .mp4, .mpeg or .mov; +640x360px; no logos or captions;
- Audio (natural sounds or songs): mp3
