OER Dynamic Coalition Launch Meeting:

Building capacity of stakeholders

Dr Nokulunga Sithabile Ndlovu

Lecturer: Educational Information and Engineering Technology

University of the Witwatersrand in South Africa

March 2, 2020

# Urgency for OERs

SUSTAINABLE DEVELOPMENT GOAL 4

- Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

Realities

- ICTs have increased access to many and yet the digital divide is our reality

  - Existing societal
  - Existing economic issues

Stakeholder Capacity Building

Collaboration at local and global levels in all stakeholder groups as knowledge and skills are shared informally and formally

Awareness

- Access to resources - research

- Improved learning outcomes

- Impact of public funding

- Funding models and mechanisms

Capacity Building Areas

- **How to** create, access, re-use, re-purpose, adapt, redistribute and evaluate OERs

- Develop supportive policy

- Use of International frameworks supporting OERs

- Creation and nurturing of sustainable communities of practice

Strategies for Sustainability

- Systematic and continuous capacity building
  - Integration of OERs in Initial teacher education programmes
  - Improvement of capacity of policy makers and implementers
  - Support of quality development and professionals on OERs
  - Access, use and creation of OERs at school level – teachers and learners

- Digital literacy skills – to encourage use and creation of OERs
  - Technical use of software, codes and open licenses
  - Continuous technical support for educators
  - Inclusion of digital literacy skills in professional learning communities
