Institute for Statistics

This document is one of the resources produced by the UIS on bridging regional education monitoring frameworks with the global SDG 4 framework.

Understanding the alignment and coherence between regional and global education agendas is key to:

- **Strengthen national planning**
- **Prompt exchanges on challenges and good practices**
- **Promote mutual learning**
- **Ultimately lead to common actions**

Setting national benchmarks: Meeting a neglected commitment

Setting national benchmarks

In August 2021, UNESCO invited countries to submit their national benchmark values for 2025 and 2030 for each of the seven global and thematic benchmark indicators as their national contribution to the SDG4 progress. The UIS partnered with a number of regional organizations to help countries fulfill this commitment.

<https://tcg.uis.unesco.org/wp-content/uploads/sites/4/2022/01/SDG-4-Data-Digest-2022-ENG.pdf>

Seven Benchmarked Indicators

- **Indicator 4.1.1** Proportion of children and young people (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex
- **Indicator 4.1.2** Completion rate (primary education, lower secondary education, upper secondary education)
- **Indicator 4.1.4** Out-of-school rate (1 year before primary, primary education, lower secondary education, upper secondary education)
- **Indicator 4.2.2** Participation rate in organized learning (one year before the official primary entry age), by sex
- **Indicator 4.c.1** Proportion of teachers with the minimum required qualifications, by education level
- **Equity indicator** on gender gap in upper secondary completion (national values to be submitted in 2022)
- **Education expenditure** as a share of GDP/total public expenditure (Education 2030 Framework for Action, \$105)
