All our work is related with different folklore ensembles, choreographers, musicologists and people who make efforts to revive Bulgarian traditions and folklore which nowadays are put aside.

At the National reviews our jury of specialists meets more than 200 collectives, evaluates their qualities and their art. The Section communicates with those groups as to organize participation for them in different Festivals and Folklore events all over the world. We assist concerts and presentations of those ensembles.

For better communication with all those collectives from different parts in Bulgaria the section collaborates with 24 choreographers who are responsible for particular regions of the country. Meetings with those coordinators are organized frequently and any needed and important information is given to them.

More than 150 choreographers from the country take part in the annually organized seminars of the choreographers in Bulgaria. At those events are discussed different problems related with the folklore and its popularization.

In many of our activities we co-operate with the Ministry of Culture, with the Union of the cultural clubs in Bulgaria, and with different organizations working in the cultural domain.
