

At the end of the first quarter 2021, Public Information and Outreach worked closely with all programme units to help to launch the Together for Peace Regional Meeting, convening education policymakers and stakeholders from across the Asia-Pacific. Communications outreach and advocacy included articles in policy and science news platforms ahead of the event, social media coverage, multimedia presentations, and editorial support for the event and to pave the way forward for the initiative. Over the course of the quarter, PIO also continued to amplify national and regional initiatives in traditional and digital media, for example organizing coordinated advocacy for International Mother Language Day, International Women's Day and World Water Day. As a member of the UN Communications Team, PIO contributed to UN Thailand joint efforts with an ongoing focus on COVID-19 resilience.
