Cultural Heritage of Humanity**

I, Fokanova Yulia Mikhaylovna, am a member of the International Akhalteke Horses Association. In my native country, in Belarus, horses of this ancient breed are still few in number, but they arouse constant interest and respect. Akhalteke horses take part in republican and international sports competitions, participate in costumed photo shoots in the national Turkmen style. Over time, the number of horses will increase and the popularity of this breed will only grow. Along with this, there is a great interest in the national and cultural characteristics of the Turkmen people. Of particular interest is the traditional decoration of the Akhalteke horses. Ammunition in the traditional Turkmen style is in great demand all over the world. As a master of ammunition, I try to recreate and popularize the ancient art of Turkmen masters in creating ammunition kits.

I, Fokanova Yulia Mikhaylovna, being a member of the International Association of Akhalteke Horse Breeding, believe that the nomination of "**The art of Akhalteke horse breeding and traditions of horses decoration**" on the **UNESCO's Representative List of the Intangible Cultural Heritage of Humanity** will contribute to the preservation of relevant techniques, skills and cultural heritage for future generations.

I, Fokanova Yulia Mikhaylovna, being a member of the International Association of Akhalteke Horse Breeding, sign my free, prior and informed consent to the nomination of "**The art of Akhalteke horses breeding and traditions of horses decoration**" on the **UNESCO's Representative List of the Intangible Cultural Heritage of Humanity**.

Я, Фоканова Юлия Михайловна, являюсь членом Международной ассоциации ахалтекинського коневодства. В моей родной стране, в Беларуси, лошади этой древней породы пока немногочисленны, но вызывают неизменный интерес и уважение. Ахалтекинские лошади принимают участие в республиканских и международных спортивных соревнованиях, участвуют в костюмированных фотосессиях в национальном туркменском стиле. С течением времени количество лошадей будет увеличиваться и популярность этой породы будет только расти. Вместе с этим проявляется большой интерес к национальным и культурным особенностям туркменского народа. Особый интерес вызывает традиционное украшение ахалтекинских коней. Амуниция в традиционном туркменском стиле пользуется широким спросом во всем мире. Являясь мастером по изготовлению амуниции, я стараюсь воссоздать и популяризировать древнее искусство туркменских мастеров в создании комплектов амуниции.

Я, Фоканова Юлия Михайловна, являясь членом Международной ассоциации ахалтекинського коневодства, считаю, что включение «Искусство туркменского ахалтекинського коневодства и традиции наряжения коней» в Репрезентативный список нематериального культурного наследия человечества ЮНЕСКО будет способствовать сохранению соответствующих приемов, навыков и культурного наследия для будущих поколений.

**Letter of Informed Consent for inscription of the “The art of Akhal-Teke horses breeding of Turkmen and horse decoration traditions” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity.**

I am Katharina-Irena Jakob, a member of the *International Akhal-Teke Horse Association (IATHA)*.

I work since 20 year as a professional Equestrian (Pferdewirt) with Akhal Teke Horses. I was attending competitions in dressage and show jumping, I had over 10 years my own Akhal Teke Horse Studfarm, I presented the horses on different Horse Shows and Exhibitions in whole Europe to promote the breed and the Culture around these horses. In Germany we carefully protect the Akhal Teke Horse also with an Association which is the oldest association for Akhal Teke Horses, found in 1974. And there were many events and projects set up to keep the Akhal Teke Horses alive and established - as one of the oldest horse breeds - in in Europe. Since 2010 I visit regularly Turkmenistan, was co-founder of the International Akhal Teke Horse Association, to promote, connect, preserve and support this important cultural heritage. I even put myself into the service to establish a special riding school in Ashgabat and was supporting the Turkmen National Team during the AIMAG where also the Akhal teke Horses had a special place and Cup to show the high value in the equestrian sports. Already in 2015 I have officially announced (to Gurbanguly Berdimuhamedov himself) -together with German Barbara Illauer- the importance of the protection through the UNESO because the Akhal Teke Horses and the culture and traditions around them are a world heritage and to become active according to the responsibility and position he has.

Because like mostly nowhere else the Akhal Teke horse breed is so much connected to culture, traditions and history and influenced not only Turkmenistan, it influenced whole Central Asia and later even China, Russia and Europe because everyone wanted to have these outstanding creatures that people/tribes and countries made war to get some of them. We need to put the Akhal Teke Horse Breed under a special protection for future generations because without these horses the world would be not the same.

Me, Katharina-Irena Jakob, as a the member of International Akhal-Teke horse-breeding association from beginning on, I consider, that including the “The art of Akhal-Teke horses breeding of Turkmen and horse decoration traditions” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity will be contribute to maintain appropriate methods, skills, and cultural heritage for future generation. I informed a consent for inscription of the “The art of Akhal-Teke horses breeding of Turkmen and horse decoration traditions” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity.

Sincerely,

**Einverständniserklärung zur Eintragung der "Kunst der Akhal-Teke-Pferdezucht der Turkmenen und der Pferdedekorationstraditionen" in die Repräsentative Liste des Immateriellen Kulturerbes der Menschheit der UNESCO.**

Ich bin Katharina-Irena Jakob, ein Mitglied der International Akhal-Teke Horse Association (IATHA).

Ich arbeite seit 20 Jahren als professionelle Reiterin (Pferdewirtin) mit Achal-Tekkiner-Pferden. Ich nahm an Dressur- und Springturnieren teil, hatte über 10 Jahre ein eigenes Achal-Tekkiner-Gestüt, präsentierte die Pferde auf verschiedenen Reitturnieren und Ausstellungen in ganz Europa, um die Rasse und die Kultur rund um diese Pferde zu fördern. In Deutschland schützen wir das Achal-Tekkinische Pferd auch mit einem Verein, der der älteste Verein für Achal-Tekkiner Pferde ist, gegründet 1974. Und es wurden viele Veranstaltungen und Projekte ins Leben gerufen, um das Akhal Teke Pferd - als eine der ältesten Pferderassen - in Europa am Leben zu erhalten und zu etablieren. Seit 2010 besuche ich regelmäßig Turkmenistan, war Mitbegründer der International Akhal Teke Horse Association, um dieses wichtige Kulturerbe zu fördern, zu verbinden, zu erhalten und zu unterstützen. Ich habe mich sogar in den Dienst der Einrichtung einer speziellen Reitschule in Ashgabat gestellt und die turkmenische Nationalmannschaft während der AIMAG unterstützt, wo auch die Akhal Teke Pferde einen besonderen Platz und Cup hatten, um den hohen Stellenwert im Pferdesport zu zeigen. Bereits 2015 habe ich - gemeinsam mit der Deutschen Barbara Illauer - Gurbanguly Berdimuhammedov offiziell auf die Wichtigkeit des Schutzes durch die UNESO hingewiesen, da die Akhal Teke Pferde und die Kultur und Traditionen rund um diese Pferde ein Welterbe sind und Mr Berdimuhammedov entsprechend seiner Verantwortung und Position aktiv werden sollte.

Denn wie kaum eine andere Pferderasse ist das Achal-Tekkiner-Pferd so sehr mit Kultur, Traditionen und Geschichte verbunden und hat nicht nur Turkmenistan, sondern ganz Zentralasien und später sogar China, Russland und Europa beeinflusst, weil jeder diese außergewöhnlichen Tiere haben wollte und Menschen/Stämme und Länder Krieg führten, um einige von ihnen zu bekommen. Wir müssen diese Pferderasse unter einen besonderen Schutz für zukünftige Generationen stellen, denn ohne diese Pferde wäre die Welt nicht dieselbe.

Ich, Katharina-Irena Jakob, Mitglied der Internationalen Achal-Tekkiner-Pferde Vereinigung von Anfang an, bin der Meinung, dass die Aufnahme der "Kunst der Akhal-Teke Pferdezucht der Turkmenen und der Pferdedekorationstraditionen" in die Repräsentative Liste des Immateriellen Kulturerbes der Menschheit der UNESCO dazu beitragen wird, die entsprechenden Methoden, Fertigkeiten und das kulturelle Erbe für zukünftige Generationen zu erhalten. Ich habe der Eintragung der "Kunst der Akhal-Teke-Pferdezucht der Turkmenen und der Pferdedekorationstraditionen" in die Repräsentative Liste des Immateriellen Kulturerbes der Menschheit der UNESCO zugestimmt.

Mit freundlichen Grüßen,

Я Ли Ок Рён являюсь членом Международной ассоциации  
ахалтекинское конного спорта.

Корея и лошади «Ахалтеке» имеют значимые отношения очень тесно  
связаны. Связь между «Ахалтеке» и коневодством Чжеджу до такой  
степени, что в древнем документе также есть историческая запись о том,  
что лошадь «ахалтекинская» использовалась для улучшения лошади Чеджу,  
признанной памятником природы Кореи №347.

В том числе я получила глубокое впечатление после просмотра шоу  
«Ахалтеке» в Туркменистане в 2014 году.

Я очень интересуюсь конной историей, культурой, фестивалями и  
совершенствованием, и я нахожусь в процессе создания и рассмотрения  
будущих планов международного академического сотрудничества в  
корейской конной индустрии. Также знаменитая книга президента

I am also the editor-in-chief of the Akhalteke Inform information and analytical almanac dedicated to the purebred Akhalteke breed of horses. The Almanac is twice a laureate of the International competition "National Literary Prize" Golden Pen of Russia" in the nomination "Editions". I personally participated in three distance races in Turkmenistan on horses of this breed. I am deeply convinced of the outstanding qualities of the Akhalteke horses: strength, agility, endurance and beauty. In Russia, there are more than 1000 heads of high-quality Akhalteke breeding stock. Here the General Stud Book of horses of purebred Akhalteke breed is published, breeding plans are drawn up, breeding young animals are evaluated, DNA origin is controlled. Republican and regional breeding exhibitions and races for thoroughbred Akhalteke horses are regularly held, they also successfully perform in competitions in classic equestrian sports.

To the UNESCO Representation in Turkmenistan

Madrid, 9 March 2022

Dear Sir/Madam,

Hereby I kindly ask you for the inscription of the "The art of Akhal-Teke horses breeding of Turkmen and horse decoration traditions" on the UNESCO Representative List of the Intangible Cultural Heritage of Humanity.

The Akhal Teke Breed is one of the oldest in the world. Owing to their resistance, endurance and vigor, they have been able to survive the hard environmental conditions in several parts of the world. (Desserts, mountains, snow, etc.)

The Akhal-Teke is the only remaining pure strain of ancient Turkmen horse, a breed whose origins are the oldest in the World.

Akhal-Teke is well known for their extraordinary capacities for sport performance as well as its distinctive endurance. This has led to top breeders all over the World to start using the Akhal Teke as improvers in every sport. I can testify myself these capacities as I have been owning several Akhal Teke horses since 1998, using them for jumping, dressage and eventing.

For all the exposed reasons, we think that Akhal Teke Horses, deserve to be included in the UNESCO Representative List of Intangible Cultural Heritage of Humanity.

Thank you very much for your kind consideration,

Sincerely yours,

Blanca de Toledo

I am Guillermo Lockhart, Member of International Akhal-Teke horse sport association, since 2007.

I inform a consent for inscription of the “The art of Akhal-Teke horses breeding of Turkmen and horse decoration traditions” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity.

I consider, that including the “The art of Akhal-Teke horses breeding of Turkmen and horse decoration traditions” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity, will be contributing to maintain appropriate methods, skills, and cultural heritage for future generations.

Our Akhal Teke Breeders Association was founded in Uruguay in 2005, with the objective of Promoting the Breed in our Country and Neighbor Countries.

With our support, Argentina began to breed Akhal Teke Horses in, 2012, Ecuador is importing the first animals and in a near future Brazil will begin with the Breed.

The Akhal Teke Breed is one of the oldest in the world. Owing to their resistance, endurance and vigor, they have been able to survive the hard environmental conditions in several parts of the world. (Desserts, mountains, snow, etc.)

The roots of the pure-bred Akhal-Teke breed reach as far back as 2-3 thousand years. Archeological excavations allowed to discover Akhal Teke remains buried with their owners. DNA Studies, done in in the Ketucky University (USA), confirmed the Akhal Tekes as one of the first equine breeds domesticated by men.

The Akhal-Teke is the only remaining pure strain of ancient Turkmen horse, a breed whose common ancestors bear a succession of different names over time: Massaget, Parthian, Nisean, Persian, Turkmene and finally, Akhal-Teke.

Akhal-Tekes are perhaps best known for their extraordinary aptitude for endurance riding. In 1935, their suitability for the cavalry was tested in a famous resistance ride from Ashkhabad, to Moscow, a distance of 4330 kilometers (2,600 miles).

The reasons for which Akhal Teke Horses are resistant and very good in sports is that this is a very versatile Breed that suffered the stress of wars, hunger, mistreatment, heat, droughts and dry or cold weather. Many times, the lack of fine grass, that was available only few months a year, was another problem for their survival.

Besides, the history of Akhal Tekes was tied to wars that invaded their territory, so Turkmen riders normally had success in their fights because of their excellent horses. The training that they gave to their horses, allowed them to cross the deserts, attack silently at dawn or gallop quickly. This was due to horses' courage and speed, because on them depended the life or death of their riders.

The Breed was tested in Uruguay in **endurance** with very good results, but besides they are **competing in Jumping Dressage and Eventing**.

As main characteristics of the breed, we can highlight their speed, stamina, comfortable gaits, intelligence and trainability.

Besides of these characteristics, Akhal Teke Horses have a **Rich History**, they are versatile, rustic, intelligent, and good companion for human beings.

For all the exposed reasons, we think that Akhal Teke Horses, deserve to be INCLUDED in the UNESCO'S Representative List of Intangible Cultural Heritage of Humanity.

Thank you very much for your kind consideration,

Best regards,

Dr. Guillermo Lockhart

*I, Yarrow Pallo, have been a member of International Akhalteke horse sport Association since 2012. I have also been working with the Akhal-Teke breed for over 20+ years. I sincerely believe that this irreplaceable horse breed is as unique as it is ancient. The Akhal-Teke horse dates back centuries and is the forbearing ancestor to both the Thoroughbred and the Arabian breeds. Alexander the Great famous stallion, Bucephalus, was an Akhal-Teke. It is unthinkable to believe this classic breed is depleted and is teetering on the endangered list. I have participated in many consultations as well as breeding techniques in various international countries as well as the US. Turkmenistan has been the foundation as well as the consistent and compassionate caregiver of this breed. I have had the incredible honor to be invited to Turkmenistan five times by the Esteemed President, Gurbanghuly Berdimuhamedow, to witness the pageantry and unprecedented care they bestow on this exceptional breed. Turkmenistan has been an exemplary model unequalled anywhere else in the World. Not only is the Akhal-Teke revered but also protected and improved in every way, shape, and form by the immitable efforts of Turkmenistan. The history of Turkemenistan and the Akhal-Teke is not only unparalleled but quintessential in keeping this breed alive and strong. My experience as a certified horse breeder, trainer, and manager with this outstanding breed goes without saying that I live and breath each day to see that the Akhal-Teke breed remains extraordinaire. Its history should rise up, not buried in archives. I firmly support UNESCO 'S application and efforts in doing just that.*

I, Tito Pontecorvo, am a member of the International Akhal-Teke Horse-Breeding Association, a member of the Akhal-Teke Association of America, and the Vice President of the Akhal-Teke Horse Registry.

I started to breed Akhal-Teke horses in 1980. In 1997, I owned around 200 pure blood registered Akhal-Teke horses. In my breeding I used mares and stallions belonging to 10 inbred lines: Geishikli, Toporbai, Karlyvaah, Aksakal, Sovhes-2, Gundogar, Fakir-Pelvan, Kaplan, Sere, Peren, Arab.

Many my Akhal-Tekes were trained with professional trainers to participate in different kinds of horse sports: dressage, jumping, and 3 day eventing. Some of my Akhal-Tekes were champions in high level competitions. In my opinion, based on the wonderful results of many my horses, and Akhaltekas belonging to other breeders, Akhal-Teke horses can successfully compete in different types competitions with horses who belong to other breeds.

The special beauty of Akhal-Teke horses, and the fact that many of my Akhal-Tekes were winners in top level sportive competitions, attracted attention to and purchases of my Akhal-Teke horses from many breeders and people from the United States and all around the world.

I have been a member of the International Akhal-Teke Horse-Breeding Association since it began. **for nomination of the “The art of Akhal-Teke horse breeding and traditions of horses decoration” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity**

When you look at the beautiful Akhalteke horses, you see that our ancestors have great abilities. Names are considered the closest friend and brother of a person. Akhalteke horses are a lifelong companion of the Turkmen people. Friendly relations between Turkmen and Akhalteke horses are far away. We among the people have a saying: "Where the horse is, there is the wedding." The land of Turkmen is a fertile land. Akhalteke horses are the main decoration of these weddings.

We are specialists of the equestrian sports complex of the Balkan velayat. We have rich experience in breeding and transporting Akhalteke horses. We also teach our young students the experience and skills we have gained in horse racing. We took an active part in identifying the features of the Akhalteke equestrian art, their design, drawing up a plan for its future conservation, and preparing its nomination.

We the team of the Balkan equestrian sport complex are aimed at achieving high results in the careful preservation and enhancement of the Akhalteke horse breeding traditions of Turkmenistan the development of the equestrian industry in our country and the creation of additional jobs for the population.

We believe that the nomination of **“The art of Akhal-Teke horse breeding and traditions of horses decoration” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity** will contribute to the transfer of horse breeding techniques, skills and cultural traditions to future generations without any changes.

We sign our free, prior and informed consent to the nomination of **“The art of Akhal-Teke horses breeding and traditions of horses decoration” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity.**

We are specialists of a State-owned agriculture enterprise specialized in producing fodder. Akhalteke got their beauty, character, speed, endurance from a wonderful character. For this reason, the growth of these magnificent horses differs from other breeds of horses. In ancient times, our ancestors used various breeding secrets in their lives to find their horses in every way. They adhered to the wisdom that "this is from the mouth of beauty" and fed according to the rules. The Akhalteke people are feed mainly with barley, oats and carrots, table salt and field grass. Butchering and nesting horses are additionally given sugar, eggs and fish oil, flour. We also produce specialized feed.

We believe that the nomination of **“The art of Akhal-Teke horse breeding and traditions of horses decoration” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity** will contribute to the transfer of horse breeding techniques, skills and cultural traditions to future generations without any changes. We have been actively involved in the development of a plan for future conservation measures.

**for nomination of the “The art of Akhal-Teke horse breeding and traditions of horses decoration” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity**

We are carpet weavers and specialists of the National museum of Turkmen Carpet. Working at the National museum of Turkmen Carpets, we will continue to follow the traditional principles of the art of hand carving inherited from our ancestors, study their history, we do carpet weaving, disseminate it among the population and pass it on to the next generation. The National Museum of Turkmen Carpets, which was opened in 2009 with the participation of our esteemed *Arkadag*, has a number of carpets and rugs. In the patterns of horse ornaments, the bride’s carpet, our daughters, from the “*Dagdan*” which is our ancient ornaments, cat out rags and divided them among the *Aladja*. This pattern-embroidered by our women carpet weavers, horse racers and equestrians – was associated with superstitions such as “ The *Dagdan* will not slip -it will not feel on the ground”.

We carpet weavers and carpet specialists are very pleased to be nominated of the “The art of Akhal-Teke horse breeding and traditions of horse decoration” on the UNESCO’s Representative list of the “Intangible Cultural Heritage of Humanity” – great pride, that is why we support and sign this proposal by writing this acceptance letter.

**FREE, PRIOR AND INFORMED CONSENT**

**For Nomination of “The Art of Akhal-Teke horses breeding and traditions of horses decoration” for inscription on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity**

The musical image of Turkmen Akhal-Teke horses occupies a worthy place in our works created by the people. This is because Akhal-Teke horses are an immeasurable value of the Turkmen value to the world. Songs sung along with Turkmen dutar music and dutar music, which glorifies our heavenly Akhal-Teke horses, are an integral part of the culture of our people.

Akhalteke horses deserve to be praised with music as well. Excerpts from the epos "*Gorogly*", such as "*Atchapar*", "*Atchapan*", "*Bedev*", which depict the image of our Akhal-Teke horses, are very popular. That is why the teachers and students of the Turkmen National Conservatory are engaged in teaching and learning songs and music dedicated to the Turkmen national musical art and Turkmen Akhal-Teke horses. Revealing the importance of music in Turkmen life is the meaning of our lives.

We include teachers and students of the Department of "Turkmen Music" and "Art of Bakhshi" of the Turkmen National Conservatory in the UNESCO “Representative List of the Intangible Cultural Heritage of Humanity” we believe that its methods, skills and cultural heritage will help to pass it on to future generations.

#### **For inscription of the “The art of Akhal-Teke horse breeding and traditions of horses decoration” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity.**

I, Allanazar Sopyyew was born in 1958 at the current time work as scientific worker in Turkmenistan State cultural center in State Museum and believe that a consent for inscription of the “The art of Akhal-Teke horse breeding and traditions of horse decoration” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity will protect and help to transfer for our future generation unchangeable.

Turkmenistan Akhal-Teke horses belong to blooded racing and high-breeding type of horses, which came from ancient times to nowadays. Their blooded origin came to nowadays consider to be equal to “*Nusay*” horses. The famous hippology of WASHNIL news members, the professor W.O. Witt follows to this opinion. Undoubtedly, there appeared the need of horse harness.

Horse harness of Turkmen horses consists of bridle, pectoral, ocular and a lot of neck decorations. Turkmen jewelers decorate the horse harness with gilded silver jewelry, and precious stones. The decorating horse harness have special initials and beautiful handmade carpet saddle. Relative to other Central Asian countries Turkmen horse decoration excels and bring it the Art level.

I am a teacher of horse harness and as a specialist in this sphere support a consent for inscription of the “The art of Akhal-Teke horse breeding and traditions of horses decoration” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity.

I informed a consent for inscription of the “The art of Akhal-Teke horse breeding and traditions of horses decoration” on the UNESCO’s Representative List of the Intangible Cultural Heritage of Humanity.

I'm Baltaeva Jeren, was born in 1982, currently work as a teacher at the Department of Art History of the State Academy of Arts of Turkmenistan. I help the younger generation to pass on relevant knowledge in order to teach young people the traditions of decorating horses.

There is a huge collection of folk wisdom, reflected in many years of research, in reflections, in historical and literary informations on the restoration and preservation of the ancient traditions of the Turkmen people associated with the Akhal-Teke equestrian art, as well as in proverbs and sayings related to horses.

Akhal-Teke horses, widely used in Turkmen art from ancient times to the present day, attracted artists with their originality, perfection of image, beauty and harmony. Figures of horses on the territory of Turkmenistan were found in many art monuments. Even today, beautiful and fast Akhal-Teke horses play a worthy role in various types of Turkmen fine arts and testify to its close connection with the worldview of our ancestors.

Jewelry art and metal art is a spiritual and social necessity for the Turkmen people, has its own original national philosophy, artistic and humanitarian principles. Therefore, the created metal products and jewelry are distinguished by their nationality, originality and perfection. Decorations for horses are an integral decoration of Akhal-Teke horses on holidays, unique in their beauty and agility. Neck necklaces, eye pads, breast decoration - all this serves not only as decoration, but also as protection for the horse. Jewelry for horses is an irreplaceable and unique decoration for Akhal-Teke horses. They were made from silver, gold and bronze, using precious stones like turquoise and carnelian. If our ancestors believed that the carnelian stone protects them from the evil eye and lightning and leads to victory in battles, then they used turquoise as a symbol of purity, goodness and love. Silver jewelry for horses serve as a symbol of courage and endurance of horses. Many of these products are designed for struggle, to decorate and for protection the body, and the other part is designed to protect against the evil eye. Our skilled jewelers continue the cultural heritage of our ancestors and continue the traditions of decorating horses.

Taking into considération abovementioned information I, the undersigned, hereby declare my full support and free, prior and informed consent for inscription of the for nomination of “The art of Akhal-Teke horse breeding and traditions of horses decoration” for inscription on the UNESCO's Representative List of the of Intangible Cultural Heritage of Humanity.

**ERKIN RAZYLYK HATY**

Men, Baltaýewa Jeren, 1982-nji ýylda doglan, häzirki döwürde Türkmenistanyň Döwlet çeperçilik akademiýasynyň sungaty öwreniş kafedrasynyň mugallymy bolup işleýärin. Men atlary bezemek döplerini ýaşlara öwretmek maksady bilen degişli bilimleri bermäge geljek nesle ýardam edýärin.

Türkmen ahalteke atçylyk sungaty bilen bagly bolan gadymy döp-dessurlaryny dikeltmek we aýawly saklamak meseleleri barada köpýyllyk barlaglar, oýlanmalar, taryhy we edebi maglumatlar, şeýle hem atlar bilen baglanyşykly atalar sözlerinde, nakyllarda we pähimlerde öz beýanyňy tapan halk pähimleriniň ägirt uly toplumy bar.

Gadymy döwürlerden başlap şu günki güne çenli türkmen sungatynda giňden orun tutan ahalteke bedewler özleriniň özboluşlylygy, syratynyň kämilligi, owadanlygy, sazlaşygy bilen tapawutlanmak bilen, suratkeşleri özlerine çekipdirler. Türkmenistanyň çäklerindäki ençeme yadygärliklerden at şekilleri tapylypdyr. Häzirki döwürde hem gözəl we ýyndam ahalteke atlarynyň türkmen şekillendiriş sungatynyň dürli görnüşlerinde özleriniň mynasyp ornuny tutmagy ata-babalarymyzyň dünýägaraýşy bilen berk baglanyşyklydygyny görkezýär.

Türkmen halkynyň metal we zergärçilik sungatynda ruhy-durmuş zerurlygy bolup, onuň öz milli öwüşginli filosofiýasy, çeperçilik we ynsanperwerlik ýörelgeleri bar. Şonuň üçin döredilýän metal we zergärçilik eserleri özüniň milliligi, özboluşlylygy, kämilligi bilen tapawutlanýar. At şaýlary gözelligi boýunça deňi-taýy bolmadyk ahalteke atlarynyň toý-dabaralardaky aýrylmaz bezegidir. Ata dakylýan boýunlyk, gözlük, göwüsben, uýan – bularyň hemmesi diňe bir bezeg ornunda bolman, eýsem, gözden-dilden goraýjy hökmünde hem hyzmat edýär. Türkmen milli şaý-seplerinde özleriniň köpdürlüligi, gelşikliligi we nepisligi bilen tapawutlanýan türkmen bedewleriniň şaýlary hem özboluşly aýratynlyklary özünde jemleýändir. At şaý-sepleri diňe bir gözelligi wezipesini ýerine ýetirmän, eýsem, olar möhüm döpleri hem amal edýärler. Olar kümüş we altyn metallar, hakyk, pöwrize ýaly daşlar bilen bilelikde işlenilipdir. Ata-babalarymyz hakyk daşynyň gözden-dilden, ýylдыrym urmagyndan goraýandygyna, söweşlerde ýeňişe ýetirýändigine ynanan bolsalar, pöwrizäni arassaçylygyň, päkligiň, söýginiň nyşany hökmünde zergärçilik şaý-seplerinde peýdalanylýardylar. Atyň kümüş esbaplary atlaryň mertligini, çydamlylygyny nygtaýan alamatlar hökmünde hyzmat edýärler. Bu önümleriň köpüsi söweş, bezeg we bedeniň goragy üçin niýetlenilişi ýaly ýene-de bir bölegi türkmen halkynyň atyny gözden-dilden goramak maksadyna esaslanyp dakylýpdyr. Biziň ussat zergärlerimiz ata-babalarymyzdan galan medeni mirasymyzy nesilden-nesle geçirip, atlary bezemek döplerini dowam etdirýärler.

Şulary göz önünde tutmak bilen, men “Türkmen ahalteke atçylyk sungaty we atlary bezemek döplerini” ÝUNESKO-nyň “Adamzadyň maddy däl medeni gymmatlyklarynyň görnükli nusgalarynyň sanawyna” goşmaga hödürlemek baradaky erkin razylygymy aşakda gol goýmagyň üsti bilen beýan edýärin.

We are the members of the Union of Artists of Turkmenistan. Among our works and sculptures Akhal-Teke horses take a prominent place. For the Akhal-Teke horses have no commercial value all over the world. Akhal-Teke horses differ by their beauty, endurance and they were glorified all over the world. In the epic “Gorogly” Gorogly tells his horse *Gyrat* “I cannot find the words, artist would draw your picture”. These horses are worthy to compose music about them, poems and draw pictures.

We, the members of the Union of Artists of Turkmenistan believe that the inclusion of “The art of Akhal-Teke horse breeding and traditions of horses decoration” on the UNESCO Representative List of the Intangible Cultural Heritage of Humanity will provide protection and its methods, mastery will help the next generations. We support all the programs for protection of Akhal-Teke horses and we assure that we do all the possible to realize them.

We express our free, prior and informed consent to nominate of the “The art of Akhal-Teke horse breeding and traditions of horse decoration” in the UNESCO Representative List of the Intangible Cultural Heritage of Humanity and sign this document.

Biz Türkmenistanyň Suratkeşler birleşiginiň agzalary. Biziň çekýän surat we heykel eserlerimiziň içinde türkmen ahalteke atlaryna bagyşlanan eserler mynasyp orun eýeleýär. Çünki, ahalteke atlary türkmeniň dünýä beren bahasyny ölçäp bolmajak gymmatlygy. Ahalteke atlary özleriniň syratlylygy, gelşikli bedeni, gözelligi bilen tapawutlanýar we dünýä ýüzünde uly meşhurlyga eýe. “Görogly” şadessanynda Görogly öz Gyratyna ýüzlenip, “Diýerden artyk talgatyň, nakgaşlar çeker suratyň” diýip taryp edýär. Ahalteke atlary söz bilen, saz bilen hem-de surat bilen taryp edilmäge mynasyp.

I am a private equestrian Amangeldi Mayjanov, I have been breeding, training and feeding Akhal-Teke horses. Our people consider their horse as a member of their family. Akhal-Teke horses play an important role in the life of the Turkmen people. I also feed my horses on the basis of the ancient traditions of horse breeding. I have been breeding horses since I was a child, and I learned from my father in law about the ongoing horse breeding traditions. I teach horse breeding techniques to my children and young people who are passionate about horse breeding, as well as the children of my neighbors. I see my names as the most honorable members of our family. I would like to pass on the unchanging traditions of Turkmen horse breeding and tribal art to the next generation – a worthy contribution to the success of the continuation.

The experience of Turkmens in horse breeding has been improving over the years. Our ancestors started caring for horses before I was born so they could breed horses. After the foal was born, it was treated like a baby. These experiences are still ongoing. As a horse breeder, I have accumulated rich experience in the care, training and nutrition of Akhalteke horses. There are many young people who are interested in horse breeding and the Turkmen national training. I pass on my experience in equestrian sport and equestrian art to young people who are passionate about this field. Thus, this art is passed down from generation to generation in a perfect methodology.

In this regard, it would be desirable to call that Akhal-Teke horses of international level were bred on the Turkmen land on the basis of animal experience. **“The art of Akhal-Teke horses breeding and traditions of horses decoration”  
on the UNESCO’s Representative list of the  
Intangible Cultural Heritage of Humanity**

Human society has national values that are not characteristic of other peoples. One of the national values of the Turkmen people is our carpets. Our handmade carpets, which are the national value of the miracle of 10 fingers of our grandmothers, are the pride of our people. Our bridesmaids, creating such beautiful art, express their cherished dreams through weaving carpets.

Therefore, there is saying among the people: “Lay down your carpet on the ground and I will know who you are”. As a result of the unparalleled efforts of our esteemed President, the art of carpet weaving has turned from an art into an art. In addition, this beautiful art is passed down from generation to generation along with grandparents. Our women, who create this wonderful art, passed down from mother to daughter, decorated not only the hearths with carpets and rugs, but also decorated the Akhal-Teke horses.

We carpet weavers fully support “The art of Akhal-Teke horses breeding and traditions of horses decoration” on the UNESCO’s Representative list of the “Intangible Cultural Heritage of Humanity”. I am so proud that Turkmen people respect their culture and national traditions.

I am a poetess Khanova Gulshirin, I have been writing poetry since I was 11 years old. The winner of the creative competition announced by the President of Turkmenistan for 2013, 2017, 2021.

There is no one who would not love the Turkmen horses. From an early age, I also fell in love with Akhalteke horses, the inseparable spirit of Turkmen life, power, decoration of weddings and houses. I am very proud that the Turkmen horses are recognized as the most beautiful and beautiful horses in the world, as the only people in the world who celebrate the wedding in honor of horses. Many of my poems about horses are song in the language of contemporary Turkmen pop singers. And my poem “The seven Backs of Yanardag” is my greatest work in this respect. This is so far and I intend to continue to glorify our heavenly horses with even more wonderful works.

Inclusion of this element- will contribute to the transmission of methods, skills and cultural traditions of equestrian sport to the future generations. We will actively participate in developing a plan for the Future conservation of this element. We fully support all jointly developed and planned activities to preserve this model in the future and declare that I will actively participate in their successful implementation.

With this in mind, I am a poet Khanova Gulshirin, declare my free consent to be listed by singing to “The art of Akhal-Teke horses breeding and traditions of horses decoration” on the UNESCO’s Representative list of the Intangible Cultural Heritage of Humanity.

Men Enwer Abalakow, fotosuratçy. Türkmen halkynyň döreden dünýä meşhur milli gymmatlyklarynyň arasynda ahalteke atlary aýratyn saýlanýar. Ahalteke atlary syratly, ynsan ýaly düşbi. Men ýaşlyk ýyllarymdan bäri ahalteke atlarynyň suratlaryny almak bilen meşgullanýaryn. Çünki, atlar tebigatyň iň gyzel jandarlarynyň biri. Seyislenen atlara şaý-sepler dakylanda olaryň gyzellikleri hasam goşalanýar. Olary synlamak, olaryň suratlaryny almak ylham berýär.

**“Türkmen ahalteke atçylyk sungaty we atlary bezemek däpleriniň”** ÝUNESKO-nyň “Adamzadyň maddy däl medeni mirasynyň görnükli nusgalarynyň sanawyna” girizilmegi atşynaslyk bilen bagly usullaryň, başarnyklaryň we medeni däpleriň indiki nesillere üýtgewsiz geçirilmegine ýardam etjekdigine pugta ynanýarys. Biz bu elementi geljekde gorap saklamak baradaky çäreleriň meýilnamasyny işläp düzmäge işeňňir gatnaşaryn. Bu nusgany geljekde gorap saklamak üçin bilelikde işlenilip düzülen we meýilleşdirilen çäreleriň ählisini dolulygyna goldaýarys we olary üstünlikli amala aşyrmak üçin işjeň gatnaşjakdygymy mälim edýäris.
