No: 19/UBND-HC

Sadec, 12 January 2022

DOCUMENT COMMITMENT ON LIFELONG LEARNING

CHAIRMAN OF PEOPLE'S COMMITTEE OF SADEC CITY:

1. Lifelong learning is an inevitable need, an obvious fact without controversy in the development process of human society and human civilization. It is not only the need but also the responsibility of each citizen for the wealth and strength of each country and people.

2. Sadec City is one of the localities with a tradition of studiousness in Dong Thap province. Therefore, we always consider it not only an opportunity for city dwellers to improve their knowledge and working skills, but also a way to help them lead a healthy and happy life.

Many lifelong learning models have been implemented in our city in recent years, such as: learning family, learning community in the villages and communes; learning unit in the offices, schools and enterprises; citizen learning. This is one of the basics for city's sustainable development according to 17 sustainable development goals by 2030 set by the Government of Vietnam and becoming a smart city in the period 2020-2030.

3. Our city has just been recognized as a member of the Global Learning City Network in September 2020. So we need UIL advices and supports on experiences and resources to build a learning city in the future.

Recipients:

- UNESCO Institute of Lifelong Learning;
- Save: office agent.

**ON BEHALF OF PEOPLE'S
COMMITTEE
CHAIRMAN**

Hon Van Nguyen
