

Canada's comments on the first draft recommendation on Open Science

Delegation of Canada/Délégation du Canada

Ms. Shamila Nair-Bedouelle
Assistant Director-General
Natural Sciences Sector

Dear Ms. Nair-Bedouelle,

The Government of Canada thanks the Natural Sciences Sector of the UNESCO Secretariat for its work in producing the first draft recommendation on Open Science.

Canada has carefully reviewed the English and French versions of the draft document and provides the attached comments, questions, and suggestions to aid in the refinement of the draft. Our response also reflects the input of the Government of Quebec, which is included as separate attachments, to complete the Canadian position.

Best regards and Happy Holidays,
The Permanent Delegation of Canada to UNESCO
