TVET STUDY GROUP

Bonn, October 24, 2023

Sustainability Communications & Programs

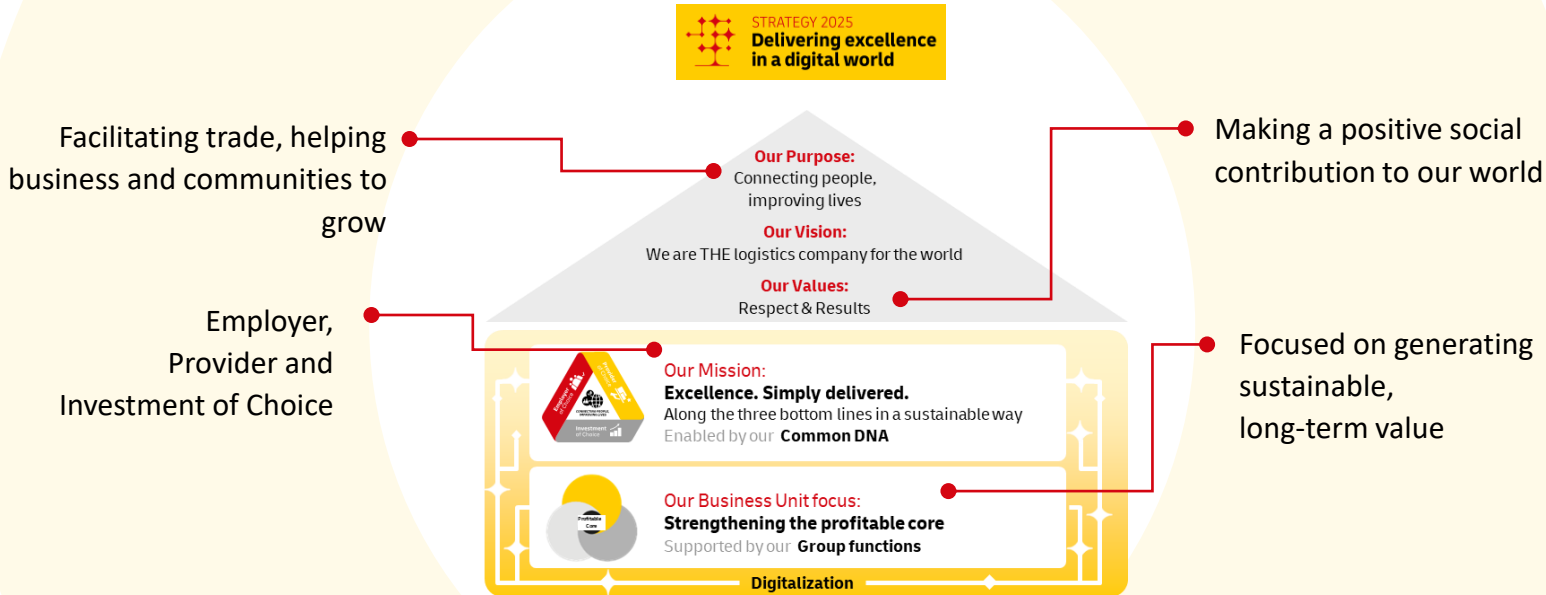

Agenda

- 1 DPDHL Sustainability Roadmap and CGGS**
What is the Group's Sustainability Roadmap all about role of CGGS
- 2 Experience CGGS!**
Live demonstration of CGGS
- 3 Q&A/ Discussion**

Sustainability is integrated into Strategy 2025 at every level

The three components of our ESG Roadmap 2030

Our Purpose: *Connecting people, improving lives.*

On our journey towards more sustainable logistics, we are focusing on three key action areas in which we can achieve the biggest impact:

Clean operations for climate protection

Great company to work for all

Highly trusted company

We are also committed to making a lasting impact in communities around the world through our **Go programs**.

GOHELP

GOTEACH

GOTRADE

GOGREEN

Our bold long-term mission

**MISSION 2050:
NET ZERO EMISSIONS**

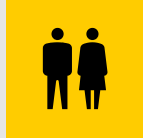

Your opportunities to contribute

Help transform your business

- Identify measures to transform your business into a greener one

Practice green office behaviours

- Making green a habit in your office

Deliver social impact

- Volunteer in your community (Global Volunteer Day, Microsite and Academy)

Certified GoGreen Specialist – vision & mindset

Our vision

We want employees to join in & understand the global challenge of climate change, the rationale behind our climate protection strategy Mission 2050 and actively take them with us on our journey towards net zero emissions.

As a Certified GoGreen Specialist employees...

- ... understand the **rationale** of our **DPDHL GoGreen program**
- ... adopt a **GoGreen mindset** and understand general **actions** that contribute to achieving our GoGreen Mission 2050
- ... be actively involved to **drive sustainability and efficiency in our working environment and beyond**

Certified GoGreen Specialist – training architecture

A Certified GoGreen Specialist...

Earn first 10 credits for completing the foundation and get the first part of Certified sticker right away.

The foundation is consistent across divisions and functions.

Deepen green skills, earn another 20 credits and receive the second part of the sticker by finishing elective modules.

Program Components

A Foundation

+10

eLearning or Offline Workshop

- Interactive chapters convey basic knowledge about what climate change is, what our company is doing to combat this global challenge and how every employee can make a difference.

*Inter-disciplinary,
cross-divisional*

B Elective modules

+20

Various learning solutions

- These modules are tailored to the needs of respective divisions or functions and enable employees to play their part in the success of Mission 2050 in their working environment.

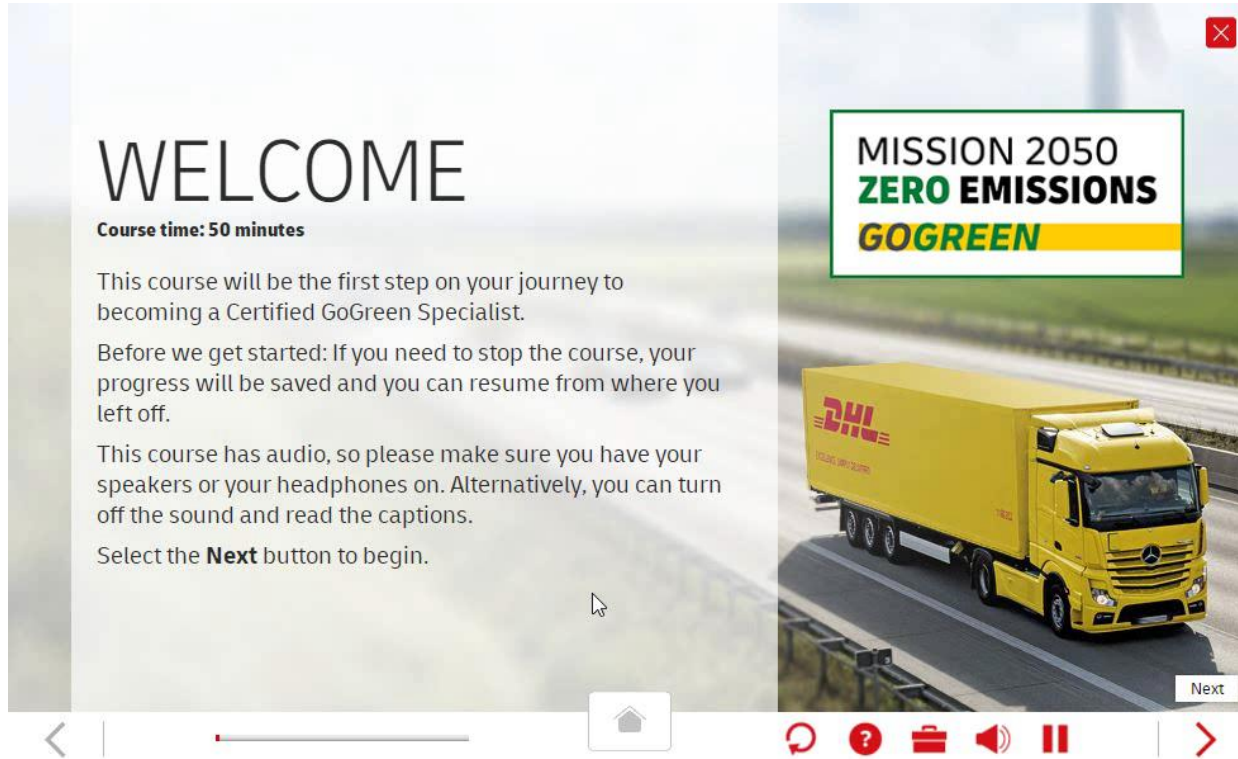

Division specific

30 Credits are needed to become a Certified GoGreen Specialist

30
