Dear Abou, On behalf of Water Future Programme, a partner of UNESCO -IHP, I am sending you some of the comments. We feel that it is an excellent document, the outcomes are well visualised and the strategies are well planned with a well-developed theory of change. I congratulate the IHP team for the tremendous effort.

I hope that some of the comments here will help. We are sorry for the delay in sending the comments within the deadline. The delay is due to the holiday break.

Water Future is also looking forward to more collaboration with IHP as indicated in our signed MOU.

best regards-Anik

Anik Bhaduri

Director, Sustainable Water Future Programme, Future Earth
