Dear IHP Secretariat, Dear Colleagues

Thank you very much for the updated version of IHP-IX program. Also thanks for your invitation, we will join the discussion session today. It would be also appreciated if you consider also our comments and suggestions from Iran, University of Tehran (UNESCO Chair on Water Reuse) we discussed during our recent meeting (3Rd EXTRAORDINARY session of the IHP) on 22-25 Feb. We shared this document file during our online meeting, and we sent it to you also on 23 Feb (attached here again). However we can't find it on the website where the messages and comments of the other countries and partners are reflected.

We think that the proposed comments and suggested novel approaches would be very helpful for IHP-IX program. We would be happy to receive your comments and suggestions for the next steps to be inserted in the program and to be developed as a full proposal together in future.

Best Regards

Aliyar Javadi
