Letter of Informed Consent

We, the undersigned Group of Silk dyers from Akhal province declare our full support. Prior and informed consent to the nomination "Sericulture and traditional production of silk for weaving" for inclusion in the Representative List of the Intangible Cultural Heritage of Humanity by UNESCO in the form of a multinational file submitted by Afghanistan, Azerbaijan, the Islamic Republic of Iran, the Republic of Turkey, Tajikistan, Turkmenistan and Uzbekistan

Sericulture is the essential part of Turkmen art. All skills and experiences of silk weaving and Silk making collected long- ago and unchangeable transmitted from generation to generation.

We are silk dyers. We paint silk in various colors. We have a wide number of tradition knowledge and skills in this job. All necessary skills and knowledge we transmitted to our young generation.

We ensure to get in and to keep save all skills and methods of "Sericulture and Silk weaving" program of UNESCO "The Intangible Cultural Heritage" and unchangeable transmit our knowledge to the future generation.

We put the signature of the consent to take part in "Sericulture and Silk weaving" program of UNESCO "The Intangible Cultural Heritage".

Consent Letter

We, the undersigned, Lecturers and students the Department of Silk and Plant Protection of the Faculty of Agroecology of the S.A Niyazov Turkmen State Agricultural University declare our full support. Prior and informed consent to the nomination "Sericulture and traditional production of silk for weaving" for inclusion in the Representative List of the Intangible Cultural Heritage of Humanity by UNESCO in the form of a multinational file submitted by Afghanistan, Azerbaijan, the Islamic Republic of Iran, the Republic of Turkey, Tajikistan, Turkmenistan and Uzbekistan

Silk products are an integral part of the culture and life of the people, incorporating the relevant traditions of the "Sericulture and traditional production of silk for weaving". The long-standing folk experience, methods and skills in silk production dates back to ancient times and accumulated are unchanged passed down from generation to generation.

We have been actively involved in collection, processing, preparation of documents, as well as the development of a plan of action for the future protection of the element, taking into account the features of this element in all provinces. We fully support all jointly developed measures to protect this model in the future and declare that we will take an active part in their successful implementation.

The inclusion of the "Sericulture and traditional production of silk for weaving" in the List, to introduce the world community to the values of the Turkmen national intangible cultural heritage, as well as through mutual cultural cooperation, mutual understanding, peace and harmony, friendship between the peoples of the region and the world.

By considering the following, we, participants of the meeting of the S.A. Niyazov Turkmen State Agricultural University agree by signing below to include our "Sericulture and traditional production of silk for weaving" on the UNESCO Representative List of the Intangible Cultural Heritage of Humanity.

Letter of Informed Consent

I undersigned Rozmetov Alisher declare my full support. Prior and informed consent to the nomination "Sericulture and traditional production of silk for weaving" for inclusion in the Representative List of the Intangible Cultural Heritage of Humanity by UNESCO in the form of a multinational file submitted by Afghanistan, Azerbaijan, the Islamic Republic of Iran, the Republic of Turkey, Tajikistan, Turkmenistan and Uzbekistan.

I am a gardener. Mulberry is the main food for silk caterpillars. My goal is to care for and grow this tree. Silk caterpillars feed on mulberry leaves. The method of growing mulberries has been passed down from generation to generation. I have extensive traditional knowledge and skills in the care and cultivation of mulberries. I pass on all the necessary skills and knowledge to our young generation.

I guarantee that we will enter and retain all the skills and methods of the UNESCO Intangible Cultural Heritage Program "Sericulture and traditional production of silk for weaving" and will invariably pass on our knowledge to future generations.
