TRANSFORMING TVET IN KENYA: A COLLABORATIVE JOURNEY WITH THE ILO, ITCILO, AND KSTVET

The ITCILO has played a crucial role in supporting KSTVET's recent strategic shift. The new plan is multi-faceted and involves developing new content, reshaping old content, and enhancing digital performance.

During the programme the various key stakeholders engaged on rich exchanges to advance apprenticeships as a quality, market-relevant and sustainable form of education and training, in order to create solutions to youth unemployment and upskilling and reskilling challenges.
