

World Oceans Day (8 June) // Gender and Oceans

- The United Nations celebrates World Oceans Day every year on 8 June. The 2019 theme “Gender and Oceans” is an opportunity to explore the gender dimension of humankind’s relationship with the ocean;
- The Intergovernmental Oceanographic Commission of UNESCO (IOC) and UNESCO’s World Heritage Centre Marine Programme are joining forces
 - to honor the many incredible women scientists whose leadership helps keep [marine World Heritage](#) moving forward, and
 - to highlight the need for more ocean science to support the conservation of World Heritage Marine sites (in the framework of the [UN Decade of Ocean Science for Sustainable Development](#) (2021–2030));
- We are looking for the most dedicated and passionate women voices whose scientific work (conducting scientific ocean/marine research, citizen science, etc.) is supporting the conservation of the 49 marine sites inscribed on UNESCO’s World Heritage List (full list in Annex 1);
- All women are encouraged to participate with a short video made with a smart phone. The short videos will be posted on UNESCO’s social media accounts, with a few making it into an edited short film to be presented at the World Oceans Day event at UNESCO on 6 June 2019;
- Videos should be no more than two minutes in length;
- Completed videos should be sent to wh-marine@unesco.org and v.lindoso@unesco.org. Deadline for submitting videos is **Friday 10 May**.
- For the videos to be used, you must sign a permission form. No film will be used without this accompanying document. The form is available in Annex 2 called “*Consent Form*”
- By submitting your video you grant permission for IOC-UNESCO and UNESCO’s World Heritage Marine Programme to use your footage. You can send in a few additional minutes of video of yourselves enjoying UNESCO World Heritage Marine sites if you wish;
- Below are guidelines for the production of the short videos and how to film them with a smart phone;
- All video messages can be made in your own language. If your language is not English, French or Spanish, please provide a short translation in a Word file with your video to allow us to quickly identify your message;

Suggested Script

Consider the following script a guideline, however it is critical that you give your name as well as the name of the UNESCO World Heritage Marine site you are in.

Please speak in any language:

- My name is _____. Happy World Oceans Day from ____ (name of UNESCO World Heritage Marine Site)!
- I am a _____ (marine scientist / marine biologist / chemist / etc.)
- I love doing ocean science/ I am passionate about my work because:
_____.
- Ocean science is _____ (describe in one adjective how you feel about ocean science / your work)
- My scientific work in _____ (name of UNESCO World Heritage Marine site) supports the conservation of this World Heritage site by _____ (provide some more info about your scientific research, ideally in one sentence, for example)

Please end your video with:

- The world needs more ocean science to support the conservation of World Heritage Marine sites

If you would like to add more of your thoughts about why the ocean is important to you, what is needed to foster more ocean science, or why you want to see the ocean protected, we would love to hear them.

Cell Phone Filming Guidelines

- Film horizontally.

- Find a friend or parent to hold the phone steady.
- Stand close to the phone.

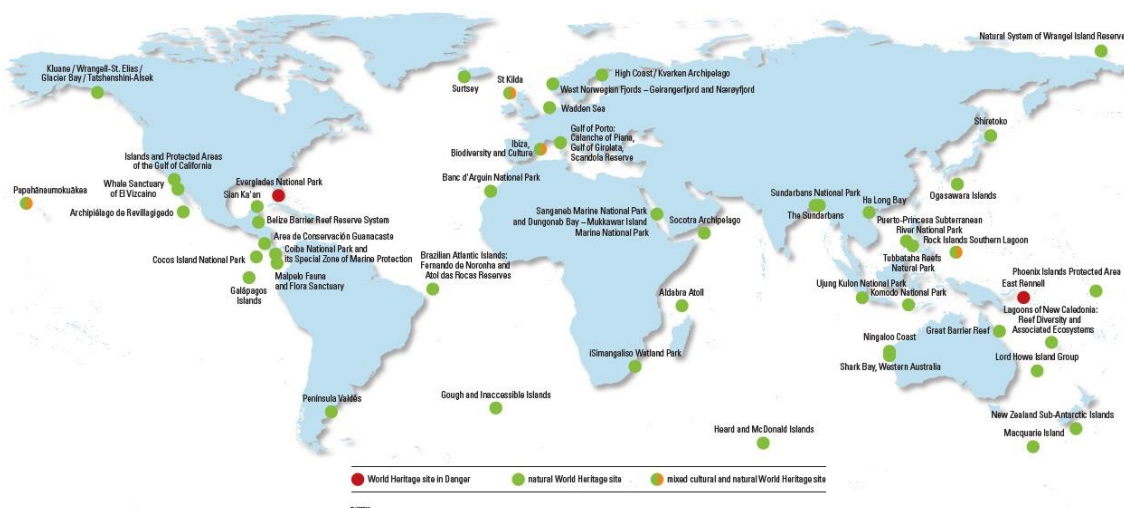

- Find somewhere not too noisy and speak clearly.
- Avoid contrast: If the background is in sunshine you should be in sunshine, if the background is in shade you should be in shade too.
- If possible, you should record the movie in a World Heritage marine site
- Smile, show your passion!

Annex 1: the 49 World Heritage marine sites

The 1972 World Heritage Convention unites nations behind a shared commitment to preserve the world's outstanding heritage for the benefit of present and future generations. It recognizes that the protection of these exceptional places is the duty of the international community as a whole.

The UNESCO World Heritage List includes today 49 unique ocean places -- distributed across 37 countries. Their disappearance would be an irreversible loss to humanity.
